Regarding this interesting story of Buter's participation in Republican politics.

"It has been the common talk among Republican circles-official circles-that the Republicans were going to carry the them do it. Just think of Colonel Ed Buter as the standard bearer of the Republican party! Better, I will admit, than those Republicans who would trade with

LAUDS SELECTION.

On this he said:

"Have we the piatform and the man on it whose past record is a guarantee for his future fitness." Good government voters irrespective of party are not to be trified with on this issue either. They are awake and will be until the rising and setting of the sun on the eighth day of next November, and we will discuss this issue and try to deserve the world-wide approbation given to Bt. Louis and the State, for the efficiency which one official though he be a Democrat—Folk—has given to his public duty and the city and State. This, too, after the Republican officials have not only ignored their duty, but disgraced the party and State in their subserviency to boodling and boodlers. The cry—false one—was and is, that to expose and prosecute political crime would hurt the sarty. Has it hurt the Democratic paty, and is it not to-day the one saving clause for its assumed and, it might be said, assured victory, because it has nominated Folk and made him the leader of the all-prevailing idea, good government, and denounced boodling and boodlers, declaring that their support was not wanted neither by active support nor money, refusing both, and the more humiliating and cowardly submission by the leading Republicans and the Republican State Convention platform, in its intentional silence upon that issue?

"Too much was expected from the fopport now as heretofore from the boodler element. Too much reliance has been piaced in the ability of that element to punish Polk and disgrace the performance of official duty in the fearless prosecution of the criminal legislative elements of the city and State and thereby encourage crime and punish civic virtue." On this he said:

Russell was one of the leaders of the House when the Filley election law was passed. That was in the early part of 1966. In September of that year he denounced Walbridge for violating the letter and spirit of the law in the following editorial, which appeared in the Staelville Mirror:

"The appointment of Election Commissioner by Mayor Walbridge in St. Louis is a great disappointment to the party workers there. No matter what the personnes of the appointee in he does not come from the party organizations, either city or State; or the Executive Committee of the Safety Committee; nor from the unanimous voice of the Republican members of the Senate and House, nor from the unanimous voice of the Republican members of the Senate and House, nor from the originators and supporters of the election bill. The confidence reposed in Mayor Walbridge by the Republicans of the State has been abused, and he has made a personal selection from his own household, almost in utter disregard of and without conferring and without the indorsement of either or all of the above-named organisations. It is reported to be in line with the policy of his previous appelnizations of the chagrin of the working and sincers, unselfish Republicans of the city. The contests in the ISS spring municipal election in St. Louis developed the fact that the present appointed of the Mayor to a proint the exception of Walbridge for Mayor, is the appointment of Saunders legal under the act requiring the Mayor to appoint a secretary of opposite politics to the chairman, Higgins?

Washington, Sept. 24.-A sad incident in

Washington, Sept. 24.—A sad incident in connection with the visit here of the members of the Interparliamentary Union was the death last night of Hector Van Doorsliner, clerk of the House of Deputies of Belgium.

Mr. Van Doorslaer was a guest of the Belgium Minister at dinner last night, returning to the Arlington Hotel at a late hour. He seemed to be in excellent health and spirits when he reached the hotel and retired soon afterwards to his room. Not responding to-day to a call, the door of his room was forced open and he was found dead in bed.

The indications were that he died soon after he had retired, probably of heart disease.
